

## IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application. Please amend claims 13-24 as follows:

### Listing of Claims

1-12. (Canceled)

13. (Currently Amended) A [[video]] recording/reproducing apparatus capable of recording video or audio into a recording medium and reproducing the video or audio from the recording medium, comprising:

recording means for recording video or audio signals and identifying signals indicating the content of the video or audio signals, into a recording medium;

list generating means for generating a title list of videos or audios recorded in the recording medium using said identifying signals;

~~means for receiving a user indication of sorting the video titles;~~

~~means for sorting the titles in the title list in response to a received user indication;~~

~~means for providing the sorted title list to the user; and~~

reproducing means for reproducing one or more videos or audios in the [[sorted]] title list,

wherein the reproducing means sequentially reproduces part of each video or audio in the title list upon user selection of playback.

14. (Currently Amended) The [[video]] recording/reproducing apparatus according to claim [[13]] 17,

wherein the sorting means [[for sorting]] sorts the video or audio titles in order of date, title, classification or recording in response to a received user indication.

15. (Currently Amended) The [[video]] recording/reproducing apparatus according to claim [[13]] 17,

wherein the sorting means [[for sorting]] sorts the titles of the recorded video or audio that has been automatically recorded by a timer in the [[video signal]] recording/reproducing apparatus that have not been reproduced, in the order of recording.

16. (Currently Amended) The [[video]] recording/reproducing apparatus according to claim 13, wherein the reproducing means [[for reproducing]] sequentially reproduces, for a predetermined amount of time, a beginning part of videos or audios in [[a]] the [[sorted]] title list upon user selection of an introduction playback.

17. (Currently Amended) The [[video]] recording/reproducing apparatus according to claim [[16]] 13, ~~wherein the means for reproducing sequentially reproduces an introduction of each video in a sorted title list~~ further comprising:

receiving means for receiving a user indication of sorting the video or audio titles;

sorting means for sorting the titles in the title list in response to a received user indication;

providing means for providing the sorted title list to the user.

18. (Currently Amended) The [[video]] recording/reproducing apparatus according to claim [[13]] 17, wherein the providing means [[for providing]] provides thumbnail images corresponding to the sorted titles.

19. (Currently Amended) A [[video]] recording/reproducing method for recording video or audio into a recording medium and reproducing the video or audio from the recording medium, comprising:

recording video or audio signals and identifying signals indicating the content of the video or audio signals, into a recording medium;

generating a title list of videos and audios recorded in the recording medium using said identifying signals;

~~receiving a user indication of sorting the video titles;~~

~~sorting the titles in the title list in response to a received user indication;~~

~~providing the sorted title list to the user; and~~

reproducing one or more videos or audios in the [[sorted]] title list,

wherein upon user selection of playback, sequentially reproducing part of each video or audio in the title list.

20. (Currently Amended) The [[video]] recording/reproducing method according to claim [[19]] 23,

wherein the sorting step sorts the video or audio titles in order of date, title, classification or recording in response to a received user indication.

21. (Currently Amended) The [[video]] recording/reproducing method according to claim [[19]] 23,

wherein the [[means for]] sorting step sorts the titles of the recorded video or audio that has been automatically recorded by a timer ~~in the video signal recording/reproducing apparatus~~ that have not been reproduced, in the order of recording.

22. (Currently Amended) The [[video]] recording/reproducing method according to claim 19, wherein the reproducing step sequentially reproduces, for a predetermined amount of time, a beginning part of videos or audios in [[a]] the [[sorted]] title list upon user selection of an introduction playback.

23. (Currently Amended) The [[video]] recording/reproducing method according to claim 22, ~~wherein the reproducing step sequentially reproduces an introduction of each video in a sorted title list~~ further comprising:

receiving a user indication of sorting the video and audio titles;

sorting the titles in the title list in response to a received user indication;

providing the sorted title list to the user.

24. (Currently Amended) The [[video]] recording/reproducing method according to claim [[19]] 23, wherein the providing step provides thumbnail images corresponding to the sorted titles.
